If you are in A1, A2, or A3 status and you place an **accumulation** of \$225+ wholesale in one month, OR you place a \$225+ wholesale order at one time, it will reset you back to A1 status that month. If you are **not** in A1, A2, or A3 status, you **MUST** place a \$225+ wholesale order **at one time**, to reset you back to A1 status.

EXAMPLES:

Sally places an active order of \$225+ wholesale in June, so in June she becomes A1. In July she places a \$50 wholesale order and receives her 50% discount but she stays in A2. August she is in A3 status and she places a \$200 wholesale order and receives her 50% discount but she stays in A3. In September she moves to I1 status so her discount becomes "Inactive" until she places an Active order of \$225+, which will then set her back to A1 status once the order has been placed.

Julia places an active order in June of \$225+ wholesale, so in June she becomes A1. In July she doesn't place an order so she stays in A2. In August she is in A3 status and she places a \$225+ wholesale order which resets her back to A1 status. September becomes her A2 Status month.

Katie places an active order in June of \$225+ wholesale, so in June she becomes A1. In July she places a \$50 wholesale order and receives her 50% discount, then later that month she places a \$100 wholesale order with her discount and then another \$125 order after that all in June, bringing her accumulated production for THAT month over \$225 wholesale, which resets her back to A1 status again. August then becomes her A2 status month.
